

KinesisIQ making spaces into smart AI hubs

OVERVIEW

Our next-generation AI platform transforms retail stores, offices, and event venues into intelligent hubs that understand not just what people do, but how they feel. By combining behavioral patterns with sentiment intelligence, we provide real-time, actionable insights that drive engagement, optimize operations, and unlock revenue opportunities.

MAKING EACH SPACE AN AI SMART HUB!

Behavioral Insights

Capture foot traffic, dwell times, movement patterns, and engagement behaviors

Actionable Recommendations

Trigger promotions, content updates, or operational adjustments automatically

Revenue-Driven Intelligence

Turn insights into measurable ROI—track conversions, upselling opportunities, and promotions

Sentiment Intelligence

Measure mood, satisfaction, and interest through opt-in interactions and engagement cues

Integrated Employee Insights

Optimize staff workflows and improve customer interactions

Passive & Active Engagement

QR codes, Wi-Fi, and app-based engagement for voluntary participation and real-time insights.

BENEFITS FOR SPACE OWNERS

Drive revenue with smarter, context-aware engagement strategies

Optimize operations and staffing for efficiency
